Political Strategists

Whether a general election may be held sooner than expected in Canada, or the present Parliament may continue to function until its complete possible time of five years has passed, there are still signs abroad the scenes along Parliament Hill that the parties are much more politically-minded right now than for a long period, with the activities indicating clearly that no party or group is taking any chance in 1943 to be confronted with the responsibility of running a campaign without the proper preparations. In other words, the political organizations seem to be engaged in planning for any eventuality which may come unexpectedly as the result of circumstances, though some of their efforts are not being widely publicized.

Arousing Public Opinion For the Farmer

Whatever reports may be given by a reliable source regarding numerous heated verbal battles and legislative events in the present session of Parliament, there is one development which stands out above all others, and this is the persistent effort by the voice of agriculture, not only to be heard from in this session but to fight relentlessly more than ever before to express the farmers' views before the representatives of the rest of Canada, with the result that quite often in this dramatic session in the capital the spotlight is now directed upon the farmer and his problems. There was a powerful demand in Parliament that agriculture must be better represented on the Board of Governors of the Canadian Broadcasting Corporation. When the Government was policies and plans were criticized by a member in the House of Commons, he exclaimed, amongst other things, "I am speaking for farmers who have worked longer hours for less than any other class of people in the country." During a debate over a manpower issue, another member remarked in a loud voice that "one of the great sections of our population suffering with respect to lack of manpower is agriculture," urging at the same time further consideration for the appointment of agriculture as agriculture representative with a practical experience in farming on the advisory board of the National Selective Service, and emphasizing in definite language that the Minister of Labor was "under-estimating" the importance of agriculture in connection with manpower, though the Minister denied this claim and agreed to prove the contrary. One member said that he considered that it would be a good plan if youngsters from 15 to 17 years of age in cities and large towns throughout Canada would spend six months on farms before it is "a place where fine citizens are produced." Another member pointed out "that many men engaged in agriculture in Saskatchewan are being called for military service, contrary to the declared intentions of the Ministry," and this caused the Minister to answer in part that "on inquiry it has been found that in many cases the complaints were made before the board had given its decision," adding, "and where there are meritorious circumstances the mobilization boards are asked to review the case." It is obvious that the farmer and his problems are very much in the spotlight of the present session drama in Ottawa.

Severe Verbal Exchanges

The present session has witnessed some unusually severe verbal exchanges across the floor of the House of Commons, and this was the case when in the course of a speech by a Progressive-Conservative member who felt that alleged that Canadian (Continued on page 5, Column 5).

U.F.W.A.

The March meeting of the Delia U.F.W.A. was convened by the president, Mrs. W. L. Oster, by stating a few of the aims of the U.F.W.A., which are well worth while.

Roll Call was responded to by "Pioneer Service" by the way. Roll Call for April is to be a verse or poem on Spring, composed by each member.

DELIA LADIES' AID

The April meeting of the Delia Ladies' Aid was held in the church annex on Thursday, April 1st. This meeting took the form of a Sunshine League. The members gathered at the church at 6 p.m., each bringing her favorite supper dish. At 6:30 p.m. twenty-one ladies sat down to a lovely looking and heavily laden table, and a most delicious supper was served by the president at the head of the table, with the secretary and treasurer on each side. At the close of the supper the meeting was called to order and each member received her Sunshine Friend of the past month. The meeting closed with the usual music, and the treasurer reported a very satisfactory amount realized from the church supper. The meeting closed with the usual music, and the treasurer reported a very satisfactory amount realized from the church supper. Extra Rations For Spring Harvesters

No provision of extra sugar, tea or coffee is made by the ration administration. Wartime Prices and Trade Board, for farmers finishing harvesting operations this spring. Officials with the Board announced. During the harvest season last fall, thousands of people travelling from farm to farm, and staying several days at a time, and the farmer's wife was permitted to obtain an additional quantity of food commodities for harvesters' meals. Due to the fact that such harvesting facilities were not provided last year, this spring, this provision has been renewed.

Guard Your Gasoline Ration Book

KEEP IT ON YOUR PERSON • DO NOT LEAVE IT IN YOUR CAR

NOW that you have your 1943-1944 gasoline ration book, it is up to you to keep it at all times in a safe place. If it is lost, burned, or stolen, you will be deprived of coupons which will not be replaced. In this regard, the policy of the Oil Controller is as follows:

1. If, through negligence, you lose your gasoline ration book before October 1, 1943, you may be allowed no more, and perhaps less, than half the coupons to which you would be entitled if you were making an original application.
 2. If, through negligence, you lose your ration book on or after October 1, 1943, you may be allowed no more, and perhaps less, than 25 per cent of the coupons to which you would be entitled if you were making an original application.
- The new gasoline rationing system, effective on April 1, will be strictly enforced. Under its provisions, the motorist, as well as the service station attendant, is held responsible if any infractions occur. It is contrary to the orders of the Oil Controller:
1. To purchase gasoline with 1942-1943 coupons.
 2. To purchase gasoline unless you have the correct category sticker affixed to your windshield.
 3. To detach coupons from your own book. (The removal of the coupons is the duty of the attendant.)
 4. To have in your possession a gasoline ration coupon not attached to, and forming a part of, a gasoline ration book.
 5. To have in your possession a gasoline ration book other than the book issued in respect of a vehicle you own, or in respect of a vehicle driven by you, with the full consent of the real owner.
 6. To offer, delete, obliterate, or mutilate any gasoline ration book or coupon.

If you sell your motor vehicle, remember that before making delivery you must remove the windshield sticker or stickers. Remember also that after the sale is completed, you must mail to the nearest Regional Oil Control Office in your province your gasoline ration book or books issued for the vehicle.

Canadain Food To Greece

Canada is sending large quantities of food to Greece. This is distributed through the United Nations Relief and Administration. Up to March 31st, Swedish ships have taken out 10,000 tons of wheat, and 1,000 tons of dried vegetables, including sugar, dried milk and medical supplies.

Increased Butter Production

Butter production rose 25.1 per cent in Alberta last month as compared with February, 1942, but the output in the province dropped 51 per cent, according to the latest figures from the Alberta Department of Agriculture.

PIONEER GRAIN COMPANY LIMITED

MAIN DRIVING WHEELS

OF CANADA'S WAR EFFORT

HURRYING wheels, thundering wheels. Wheels that have made it possible for Canada to grow in strength.

Today those wheels—the driving wheels of Canada's railways—are setting the pace for the war effort. They haul raw materials to humming war industries and rush away the finished tools of battle.

They move food and fuel for the home front and the fighting front. They speed civilian and military business, hasten troops to camps, embarkation points and on leave.

It's Canada's big war job. A job that only railway wheels can do. A job in which an army of 150,000 men and women are doing it.

From coast to coast in Canada, in the fight for Canada; shop crews and train crews, yard workers, section hands, relay phers, signal men and office workers, a multitude of men and women in a multitude of jobs. They are making the giant wheels turn faster and faster.

From coast to coast in Canada, in the service of freedom, and our lines to and in the United States have linked the war efforts of two great sister nations.

The railway wheels are driving in war as in peace, for Canada.

Carrying the load in War and Peace

BRITISH FOREIGN SECRETARY SAYS COMMONWEALTH GOOD MODEL FOR WHOLE WORLD

Annapolis, Md.—The British Commonwealth of Nations stands as a model of co-operation and unity that the world might study with advantage when searching for a post-war peace plan, British Foreign and Commonwealth Secretary Anthony Eden, British foreign secretary, said here.

Speaking in a joint session of the general assembly of the State of Maryland, of which one of his co-speakers, Sir Robert Eden, was the first of the British governors, he said the Commonwealth was a model with American leaders in Washington are certain to bear fruit in the future. He repeated his earlier warning that "we have yet far to go" in the fight against the forces of our enemies in the west and in the east.

To the assembled legislators of Maryland, Eden in his broadest address received Britain's pledge to accept a full share of the war against Japan, after the defeat of Germany and Japan, though the British "mindful" on Britain's determination to assist in the reorganization of the world supply of raw materials, "to that we have no secret engagements with any country, nor do we have a casual contract with any country to extend our boundaries or increase our possessions."

It was an historic occasion for Sir Robert Eden's first public speech since his arrival in the United States only two weeks ago. He spoke in the atmosphere of Maryland's state assembly, his first public speech since his arrival in the United States only two weeks ago. He spoke in the atmosphere of Maryland's state assembly, his first public speech since his arrival in the United States only two weeks ago.

DELIVERIES SLOW

Western Wheat Marketing Quota Only 45 Per Cent Filled.
Ottawa—Western wheat deliveries only at a slow rate, with only about 45 per cent of the quota of 284,000,000 bushels filled so far, the Dominion bureau of statistics said in a review of the wheat situation. Last year in the same period from the start of the harvest in Aug. 1, only 45 per cent of the quota of 230,000,000 bushels had been delivered.

C. Laverie said that the late 1942 harvest and the severe weather had contributed in some measure to the slow rate of marketing.

While censorship regulations covering export figures make it impossible to establish the complete statistical position, the bureau said it was indicated the carrying capacity of the quota would be greater than the 424,000,000 bushels at the beginning of the present crop year.

NEED MORE SHEEP

Ten Million Required To Fill Canadian Wool Quota.
Toronto—Ten million sheep are required in Canada to fill the Canadian yearly wool quota, George F. O'Brien, general manager of the Canadian Co-operative Wool Growers' Association, told the 29th annual convention here.

"The present sheep population is less than 1,000,000," said Mr. O'Brien. "The 10 per cent increase in wool production last year came from an additional 114,000 sheep. The total to serve quota of wool for Canadian war conditions is another 1,000,000 above an Canadian farms."

BIG WOODEN SHIP

One Of Largest Built In Nova Scotia In Lunenburg.
Lunenburg, N.S.—One of the largest wooden ships ever built in Nova Scotia has been launched on the Canadian east coast.

The new ship is the "Beaver," and it is the largest wooden vessel ever constructed at the well-known South and Highland yards.

The "Beaver" is a new addition to the fleet of the marine craft section of the R.C.A.F.

BIGGER BOMBERS

London, Nov. bigger and faster American bombers which will carry 10 or 12 times the bomb load of the present Flying Fortress will be thrown into a round-the-clock bombardment of Europe, according to Gen. Ira C. Baker, chief of American forces in Britain.

London—The Daily Sketch said Monday is writing in London. The first half of the fleet has already been delivered to a base pending the arrival of the second half. Now the remaining half of the work, devoted to the war years, after the war.

MUST BE PROVED

British M.P. Says Sweden's Attitude Is Inadequately Pro-Axis

LONDON, Nov. 25.—Alfred Knox, Conservative, told the House of Commons that Sweden's attitude since the beginning of the war had been "a disingenuous pro-Axis" and suggested that the United Nations might have to bring her into line by withholding foodstuffs sent from U.S.

His charge, which attracted considerable attention, which asserted that German transport aircraft carrying troops and ammunition machine-guns had been passing over Sweden.

Mr. Knox said that it was obvious there had been a great wave of food in Australia. Some reasons for the current shortage he said, were increased demand because of additional public spending power, and the department demands for the armed services, shortages of manpower and transport difficulties. For the most part, he said, the food was not available due to adverse seasonal conditions.

SOME DISCHARGED

About 100,250 Men Released From Active Duty At End Of 1942
Ottawa—Up to the end of 1942 a total of 100,250 men were discharged from the armed forces. It was shown in a return table in the Commons for Dr. J. H. Macpherson (Prog.), Toronto-Patton.

The strength of the army overseas was given as "over 170,000" as of Dec. 1, 1942, and the same figure was given for the general staff. The army in Canada as of Dec. 28, 1942, showed service troops called up for the National Resources Mobilization Act were placed at more than 50,000 on Nov. 24.

FOOD PRODUCTS

Problems Discussed By United States Canadian Agricultural Committee

Ottawa—First Canadian members of the standing United States Canadian agricultural committee ended their visit here today with a discussion of different programs and problems concerning various food products.

Dr. G. S. H. Barton, deputy minister of agriculture and food, presided at the Canadian session, and continuing discussion would be held in agricultural products in Canada.

The food products committee in Canada and the United States government will continue to further such developments as may be suggested by the committee.

Five United States agriculture and food authorities met with the Canadian committee members.

Dr. Cyril James, chairman of McGill University, principal of the Canadian government's advisory committee on reconstruction. Dr. Lavin and Dr. March, who drafted Canada's "Beverly" plan, is research advisor to this committee. The report was presented at the request of Hon. J. L. Macpherson.

WARTIME BOARD

Expenses For Information Now Total \$379,162, According To Report

Ottawa—Reports of the wartime information board, which was set up in 1941, show that the board has spent \$379,162, and a return table of the board's activities.

The board's activities, however, and living allowances of \$110 per month for the board's members, and received any living, housing, or other allowances, the return said.

Expenses made by the prime minister and other members of the board were distributed by the board when judged of national significance. Such distribution has been made in five instances, the return said.
